If You Have a Payment Processing Need, We Have The Solution.

End-to-end solutions to meet your specific needs.

Payment Solutions from a Trusted Partner

Your business is unique, and so are its challenges. In today's competitive marketplace, you must balance good customer service with efficient cash management and risk control. You're in good company with Elavon; we support more than 1 million small business merchants worldwide. So no matter your business — retail, restaurant, health care, service industry, mail order, e-commerce — we have the solutions you need to optimize your payment processing.

Credit Cards

Point-of-sale programs combine a broad range of credit payment choices with built-in business tools that make managing payments a breeze.

Debit Cards

A gateway connection to the debit network gives you additional flexibility when accepting payments.

Corporate Purchasing Cards

Solidify your relationships with corporate, government and educational customers. Reduce paperwork, enhance customer relationships and win new business with corporate purchasing cards.

Point-of-Sale Solutions

Elavon understands the way you accept payments varies depending on your business model. That's why we offer a wide variety of processing solutions to meet the needs of different business environments.

Payment Terminals

Stay in compliance with the latest cardholder security standards with Elavon's broad range of dial, Internet-enabled and wireless terminals and peripherals.

VirtualMerchant

Now, if you have a PC, you can take credit and debit payments — quickly and securely, anywhere, any time — without a major investment of money or effort. Elavon's VirtualMerchant is a complete hosted payment solution that instantly transforms your PCs into "virtual" payment terminals, accepting all credit and debit cards. VirtualMerchant is designed to accommodate organizations of any size in any business segment and process transactions in physical face-to-face, mail order/telephone order, or e-commerce environments. It also easily handles recurring and installment payments. Best of all, you reduce risk and compliance headaches by letting Elavon protect your financial data, ensuring you're in compliance with the latest industry security standards and regulations.

viaWARP

Elavon's viaWARP solution lets you turn your PC into a POS payment solution using an existing Internet connection to efficiently and cost-effectively process payments in a mail order/telephone order (MO/TO) environment. It's also scalable to expand as your business grows. And viaWARP is more cost effective than payment terminals, especially if you need to support multiple users.

Reporting Solutions

Online Reporting & Support Tools

MerchantConnect is our free online reporting tool that allows you to securely monitor your account from any web browser at any time of day. With MerchantConnect, you can display recent deposits, view chargebacks and retrieval requests, access customer support, and more.

Support & Operations

Risk Management & Fraud Control

Elavon's network has built-in fraud monitoring and control features to protect your business and your customers' card data. A robust set of risk management and fraud prevention tools are provided.

Customer Service & Voice Authorization

Customer support is there whenever you need it. A dedicated and well-trained staff of service professionals operates a 24/7 call center for voice authorization and client assistance.
