

# Elavon Fleet

All Payments. One Terminal. One Point of Contact.

Gain Incremental Income  
Through Fleet Acceptance

## Benefits at a Glance

- Supports all Fleet cards, including Voyager and Wright Express
- Ability to pass line item detail to meet Fleet transaction requirements
- Supports acceptance of all payment types through one easy-to-use payment terminal

The Elavon Fleet terminal allows retail petroleum and auto service locations to accept fleet, credit, debit and gift cards through one easy-to-use point-of-sale solution. Elavon's program has connectivity to all Fleet Issuers. The terminal captures item detail such as mileage, fuel price and item description, helping manage expenses related to Fleet transactions.

# Elavon Fleet

## Simple To Use & Easy To Learn

- 35-key keyboard allows one-step initiation of all daily functions and transaction types
- Extra large back-lit graphics display
- Six convenient soft keys for easy menu selection

## Efficient & Safe

- Sureload drop-in thermal printer provides fast, quiet receipt delivery and eliminates paper jams
- Large paper cradle means longer paper rolls, resulting in fewer paper changes
- Small footprint preserves precious counter space
- Secure PIN pad supports the latest security protections including DUKPT and triple DES and Master Key/Session Key encryption, ensuring all PIN-based transactions are in compliance and processed safely

## Flexible & Powerful

- Supports acceptance of Voyager®, Wright Express®, Visa® and MasterCard® fleet cards
- Handles multiple payment types including fleet, credit, debit, Electronic Gift Cards and Electronic Check Service
- Supports the transmission of required Level III fleet data elements, including odometer reading, net fuel price, type of service, item quantity and more

Drive Fleet Revenue  
To Your Door.
