

# Hypercom PIN Pad P1300

Industry Leading Security

Cost Effective PIN Entry

## Benefits at a Glance

- Has the highest level of security mandates in the industry
- Fits comfortably in customer's hand
- Rugged design can withstand physical impacts faced at point of sale

The Hypercom P1300 provides an ideal solution for merchants looking to capitalize on the rapid growth of debit, EBT, and other PIN-based transactions. Easily connecting with most existing Hypercom POS terminals, the P1300 offers a fast, simple way to accept the latest in PIN-based payments. This PCI secure solution puts merchants on the card industry's leading edge by incorporating a broad array of sophisticated security features to guard against fraud and abuse. In addition, the P1300 features advanced ergonomics and a sleek design that fits comfortably in the palm of a hand.

# Hypercom PIN Pad P1300

## User Friendly

- Provides clear instructions to the user facilitating the transaction process
- Features intuitive customary keypad layout with easily identifiable function keys that are fully compliant with industry standards
- Includes three soft keys below the display that provide users more control over the transaction process

## Smart

- Operates with any Hypercom terminal that uses DUKPT encryption automatically by simply plugging the unit into the payment device's PIN pad port
- Compact design ensures users can easily handle the unit and allows them freedom to further shield their PIN entry with their body or hand

## Secure

- Supports Triple DES DUKPT encryption to protect valuable cardholder PIN
- Tamper-proof design meets stringent security standards that safeguard the device from external attacks
- Meets new PCI security guidelines
