

Payments Without Borders

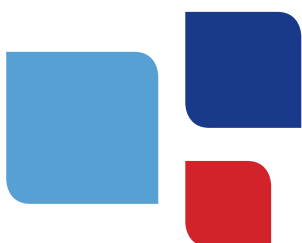

Payments Without Borders

Elavon is one of the world's leading payment processors, responsible for processing billions of transactions annually.

Global Reach. Local Service.

Elavon is a global market leader exclusively dedicated to end-to-end payment processing solutions, serving the needs of more than one million customers across Europe and around the world. Our powerful and secure International Processing Platform supports comprehensive payment processing capabilities — including unmatched Dynamic Currency Conversion (DCC) — and is delivered over one global network, bringing you the benefits of a single-supplier solution.

Our teams of knowledgeable people throughout Europe will work with you to deliver a solution tailored to your needs and will provide the hands-on support you require, pre- and post-sale. We provide personalised, highly responsive service from experienced people who understand your needs and speak your language. Elavon truly represents payments without borders.

Whether you operate in one European country or do business around the globe, we act as a single source for all your payment processing needs.

A Strong and Focused Payment Specialist

At Elavon, our sole focus is on delivering the highest quality and most secure payment solutions to help your business succeed. We handle payment processing for over one million customers around the globe.

End-to-End Solutions

- End-to-end processing for virtually every type of transaction: from credit and debit including DCC, electronic gift and pre-paid cards
- Dependable settlement and comprehensive reporting services
- Compliance with the latest card scheme and regulatory standards
- Unique professional services including innovative chargeback management, efficient interchange management and risk management

By handling everything, we can process your payments more effectively, deliver exceptional customer service and provide reporting and consultation services tailored to the specific needs of your business.

Why Elavon

- Global card processing solutions
- A local presence across Europe
- Robust, secure and highly scalable processing platform
- State-of-the-art products and services
- Single point of contact to resolve issues
- Two decades as a company solely focused on payments
- Backed by the financial strength and stability of U.S. Bank

One Processing Platform Across Europe

Our International Processing Platform simplifies your operations and saves you time and money by providing cross-border, multi-currency payment capabilities in multiple languages.

Single Pan-European Arrangement

We authorise payments in nearly 100 currencies and settle in 16 currencies. This lets you consolidate costly and inefficient country-specific requirements into a single pan-European arrangement. This streamlines processing and settlement, accelerates funding, makes reports and statements consistent from one country to the next, and can help improve your bottom line.

In addition, you benefit from having just one point of contact to resolve payment queries, deliver terminal solutions, implement changes and upgrades, manage reporting, and support fraud control — helping to drive your costs down.

Advanced Reporting Tools

Elavon's iMerchantConnect advanced web-based reporting tool offers hierarchical and consolidated reporting for your entire business. This provides enormous time savings and significantly improves your control over payment processing costs and funding.

Our Dashboard Management reporting aggregates data from hundreds of locations and enables businesses to understand their interchange expenses; our Premier MIS reports provide monthly updates of vital metrics.

End-to-End Payment Solutions and Highly Responsive Service, Tailored to Meet Your Needs.

DCC Generates New Revenue

Elavon's Dynamic Currency Conversion (DCC) solution enhances customer convenience by enabling you to instantly convert nearly 50 different currencies at the point of sale. You'll realise a significant new source of revenue by sharing in the conversion fees for each DCC transaction you process.

You Can Rely on Elavon's People

Elavon is focused on complete card payment solutions. We provide the expertise you need and make the investment in systems and people to help you stay current with the latest regulations and industry requirements.

We Understand Market Complexities

- Country-specific interchange and pricing schemes
- Development of a Single European Payment Area (SEPA) in accordance with EU guidelines
- Regulatory and compliance mandates
- Comprehensive PCI compliance programme, including financial protection
- Professional and managed services covering interchange analysis, chargeback management and fraud control

Enjoy the peace of mind of working with a provider that has an intimate understanding of the growing complexities of the European card payment processing market.

We put our highly trained and exceptionally qualified staff at your service on a daily basis. This includes a premier customer relations team whose personnel act as dedicated customer advocates to help resolve any operational issues that may arise — giving you someone you know to contact whenever you need assistance.

Elavon's Leadership Standards

Stability

Our core processing platform is built on proven, dependable and redundant Stratus switch technology that delivers maximum uptime.

Security

Elavon adheres to the strictest PCI and security standards, making cardholder data protection a key priority. Our solutions support the latest security technologies.

Flexibility

Payment types, communication methods and processing rules are customised to the unique needs of your business.

Connectivity

We offer terminals, software, e-commerce and gateway solutions to connect any point-of-sale system to any processing endpoint.

Visibility

Batch management and reporting are accessed through easy-to-use online tools, providing a real-time view into the transaction lifecycle.

Simplicity

Our end-to-end approach means you have one point of contact for all your processing needs.

Backed by the Strength and Stability of U.S. Bank

While we are an independent payment solution provider, we are fortunate to be backed by the strength, stability, and financial security of U.S. Bank – the fifth largest commercial bank in the United States.

Elavon Has a Solid Foundation

U.S. Bank has a solid capital position and capitalisation that exceeds most of the institutions in its peer group. Furthermore, U.S. Bank has a deep commitment to the payment industry, with nearly one-third of its income derived from payment services.

With Elavon You Benefit From:

- ✓ Reduced processing costs
- ✓ Faster receipt of funds
- ✓ Streamlined processing and settlement
- ✓ Consistent pan-European reports
- ✓ Value-added solutions
- ✓ Enormous time savings
- ✓ Significantly improved control
- ✓ Secure data protection
- ✓ Highly reliable processing
- ✓ Easy-to-use management tools
- ✓ Dedicated Elavon contacts
- ✓ Improved bottom line
