

SmartPayments™ Plug-In for QuickBooks®

Simple and Affordable Payment Processing With QuickBooks

Benefits at a Glance

- Process transaction within your QuickBooks accounting software
- Works with QuickBooks Pro, Premier and Enterprise
- Eliminates duplicate transaction entries

SmartPayments™ Plug-in for QuickBooks® allows you to process face-to-face and mail-order/telephone-order transactions utilizing the payment module within your QuickBooks accounting software. SmartPayments Plug-in for QuickBooks is a software utility that allows you to process credit and debit transactions through Elavon's network. Installation is quick and easy; an intuitive wizard guides you through the process in minutes. By interfacing with QuickBooks, you eliminate duplicate or redundant transaction entries and any need to have expensive stand-alone terminals or software. Best of all, it's powered by Elavon, the payment network rated #1 by Mastercard® for speed, availability and reliability.

SmartPayments™ Plug-In for QuickBooks®

Versatile & Easy-to-Use

- Works in both physical (face-to-face) or Mail/Phone Order environments
- Handles a variety of payment types – credit card, PIN-based debit and EBT
- Simple to install – you'll be up and running in minutes
- Works with necessary peripherals for retail card swipe and PIN-based transactions
- Maintains a detailed transaction history so you have access to what you need long after a batch is gone
- Relies on a familiar Windows-type interface, making it very easy to navigate

Efficient & Cost Effective

- Leverages existing PC and Internet connections – eliminates costly charges for stand alone terminals and dedicated telephone lines
- Requires minimal up-front investment, less than the cost of a single, average-priced terminal
- Processes transactions in as little as three seconds over a high-speed Internet connection
- Employs the latest SSL Certificate encryption technologies to ensure transactions are processed in a safe and secure manner

Software & Hardware Requirements

- Intuit QuickBooks 2004 (Pro or Premier Editions); 2005, 2006 or 2007 (Pro, Premier or Enterprise Editions)
- PC with Microsoft® Windows® 2000, Windows XP or Windows 2003 Server
- 128 MB minimum of RAM, 256 MB recommended
- 100 MB free space on hard drive, 300 MB recommended
- 400 mhz or faster processor
- Microsoft Internet Explorer® v.6 or higher installed
- Latest Microsoft service pack updates installed
- Internet connection (All modem dial-up, DSL, Cable/Modem, etc.)
- CD-ROM drive

Required Peripherals

- Face-to-face transactions require a mag-stripe reader to qualify for best rates
- PIN debit and EBT require the addition of an external PIN pad
