

Epic Integration

Epic Credit Card Framework (CCF)

- Process payments through Epic built screens
- Supports Epic certified devices, including EMV, NFC
- Real-time posting
- Full use of Epic CCF in MyChart and MyChart Mobile without cardholder data touching Epic servers
- Payment card, check, eCheck

Epic Point of Sale Module

- Launch payment screen directly from Epic
- Full support for all device types
- Real-time posting
- Payment card, check, eCheck

Online Direct Login

- ADT feed available to reduce data entry
- Batch posting file for all payments
- Light footprint and easy deployment
- Often complements other integration approaches
- Payment card, check, eCheck
