

More than 19,000 public sector customers trust Elavon to manage their payments

Drive More Revenue, Reduce Costs and Improve Satisfaction

With funding delays, revenue fluctuations and rising costs, it's more important than ever that government entities capture all the revenue owed them. Digital payments can help pave the way. Forty-two percent of citizens in a recent survey said most of their government transactions are digital, but 86 percent want to increase them.² Topping their list of wants is a secure means to pay taxes, fines and registrations.³

Elavon Payment Solutions assist organizations in government and public sector, higher education, utilities and non-profits in taking control of revenue, cutting costs and managing day-to-day operations more efficiently, while giving citizens the convenience they want.

OFFER CITIZENS MULTIPLE WAYS TO PAY, COLLECT MORE REVENUE

Whether you need to accept payments for beach parking, water service or college admissions, we have a solution to fit your needs. Elavon will process your customers' payments and any applicable convenience fees, as allowed under specific card network guidelines.* The collected convenience fee could reduce or eliminate your transaction costs.

Choose from web-based, mobile, mail/telephone and onsite options to securely accept:

- Credit cards – including EMV, magnetic stripe and contactless
- Debit and PIN debit cards
- Apple Pay® and Android Pay™
- Electronic checks, ACH and EBT
- Gift cards
- Loyalty cards

*Merchants must complete registration with Visa® and/or Mastercard®, after which a unique merchant control number will be assigned if approved.

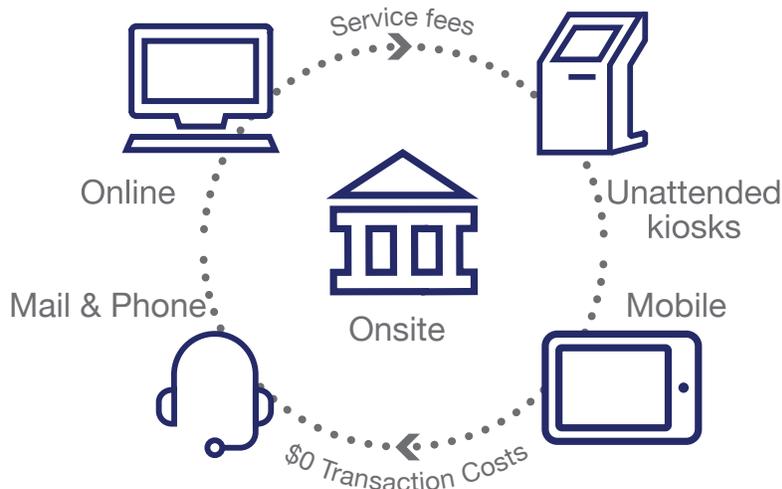

Transactions top the list of activities citizens would like to conduct digitally.¹

LET'S TALK:

Multichannel Solutions

Your citizens can pay how they want, when they want from where they want – including tablets and smartphones. You'll increase the likelihood of timely payment when you offer multiple ways to pay.

REDUCE ADMINISTRATIVE COSTS AND ERRORS, SAVE TIME

Our solutions seamlessly integrate with your systems for improved efficiency and time savings. And automated systems reduce opportunities for error, plus streamline reconciliation and provide real-time reporting. Digital payment options reduce paper printing and billing costs with online presentment and electronic statement delivery.

SAFEGUARD PAYMENTS AND TRANSACTIONAL DATA

While citizens want faster, easier ways to pay, they also want to know their payment data is safe. A layered approach to security offers the best means to counter fraud and data breaches. We can help protect your payment data at every point in the processing lifecycle.

Our security solutions also reduce the cost and time to achieve PCI DSS compliance for payment transactions. So you can rest assured you'll adhere to card brand requirements and industry data security regulations.

TRUST YOUR PAYMENTS TO ELAVON

For 25 years, we've helped more than one million customers around the world – including the public sector – successfully manage their payments. Our flexible, secure and innovative solutions help attract and keep customers, simplify operations and reduce costs. We can do the same for you.
