

Discover the benefits of Transend Pay

We've made it easier, safer, and faster for healthcare providers to receive electronic payments.

Designed specifically for the healthcare industry, Transend Pay expedites claim payments and offers standardized remittances and simplified reconciliation for more efficient administration. Save your organization time and money – easily activate as a payment method alongside your other payment services.

Rethink your payment options

Existing claim payment methods have inherent drawbacks. Paper checks and the associated reconciliation processes can increase administrative work. ACH can entail cumbersome enrollment processes. And virtual credit cards can be lost or misplaced. Transend Pay is a unique and reliable payment method that remedies these issues, helping you to both enhance cash flow through fast payment receipt and streamline administration through availability of remittance data with each payment.

Transend Pay delivers

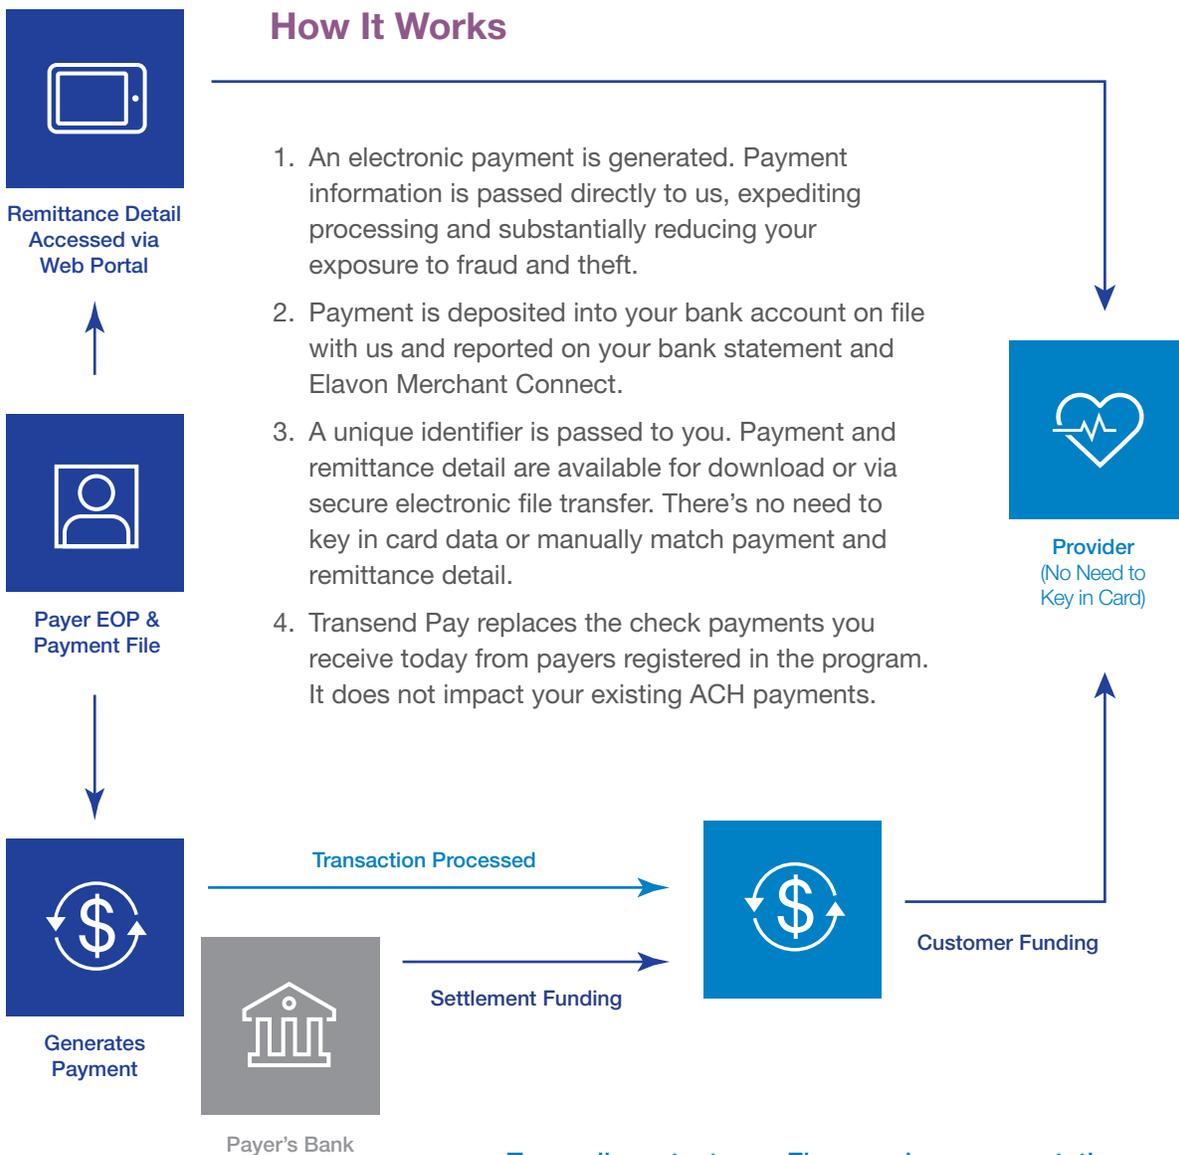

By directly processing payments from registered payers to enrolled providers, Transend Pay offers several advantages:

- **Standardized ERA** with distribution options to automate posting processes
- **Simplified reconciliation** through inclusion of Trace Reassociation Number with the payment
- **Accelerated payments** that are up to three to seven days faster than check
- **Safe and reliable** method for receiving payment
- **Get started quickly** with easy program enrollment

How It Works

To enroll, contact your Elavon sales representative.
